My dear Mr. White:

There are between 300 and 400 Negro teachers - city and rural - in my parish or county - Caddo parish. They're paid about half as much as the white teachers doing the same work.

In the event I'm successful in getting these persons to pay \$1,000 each to the N. A. A. C. P., what legal assistance could we get from your office in a fight to equalize their pay? I already have a teacher who is willing to file the suit.

Thanks!

Arthur Banks,
Sec. local branch.
